VOLUME CVII.--NO. 129. ALEXANDRIA, VA., TUESDAY EVENING, MAY 29, 1906. PRICE 2 CENTS.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed *free* to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the *names of the ingredients* on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it *in a class all by itself*, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowles and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c stamps for sample to The Herpicide Co., Detroit, Mich.

Sullivan's Last Victory.

In the longest battle of his most remarkable career, John L. Sullivan, "champion of champions," a man whose name and fame are perhaps more intimately known to the great masses of the American people than that of any other living American, has won a signal victory. He has knocked out John Barleycorn after a fight lasting 29 years.

"I entered the ring with King Alcohol more than 29 years ago," said the mighty Sullivan, "and I won a final victory 15 months ago. This I regard as my greatest achievement, however much my claims to being remembered are connected with putting my fellow-men to sleep, after the fashion of champion fighters. I do not inveigh against whisky in itself or saloonkeepers. I know thousands of good saloon men; many of my warmest friends are in the business; but it is no business for me. I tried it several times, and I despise it above everything on earth. I wouldn't take a saloon as a present, not even if its receipts were $100 an hour. I was never successful as a saloon man. I could never refuse a man liquor if he asked for it and had no money, and I couldn't sell him liquor when he was drunk and didn't know what he was doing. I was a poor entertainer, for I was always disgusted with the sad, the unfortunate part of it. Mind you. I'm not delivering a temperance lecture. It is my firm belief that every man will have his fling at life. If I had 20 boys of lively dispositions I would counsel them to keep their heads, but I'd let them 'go it' for a while. Then I'd take the reins and bring them up with some advice. Now that I have control of myself I can take a philosophical view of things. The drinking man does not enjoy life. All the things of life that are really worth while he overlooks entirely. I do not speak of the man who takes a social glass or the honest workingman who takes his mug of beer. I mean alcohol's slave, the man who has reached that point in inebriety where he can appreciate no good thing without first priming with whisky."

Four Husbands Living.

Judge Greebaum, in the New York Supreme Court, yesterday signed a decree of divorce which severed the matrimonial bonds of George H. Potts and his wife, Magdalene Potts. The action was brought by the husband and was undefended. Mr. Potts says his wife has the marrying habit, and the testimony brought out the statement that she has four husbands living, although a divorce has never been granted. In view of this, Judge Greenbaum said he would send the papers in the case to the District Attorney for his consideration. Mr. Potts is the third husband of the defendand, and married her in 1903. According to Mr. Deutsch, Mr. Potts' counsel, the couple lived happily for about a year, when the seeds of discontent were sown by the wife's sudden fondness for society, which, the husband says, kept her out the greater part of the night several times each week. When Mr. Potts objected, his complaint says, the woman left him. Last August he found she had married Frank C. Buchanan, who is named in the complaint. Then he learned that Mrs. Potts' first husband was Charles Van Wart, whom she married in 1897, when she was 16 years old, and that after separating from him she was married to David Williams.

Alleged Assault on Train.

The alleged facts in a peculiar case of robbery on a Baltimore and Ohio train was brought to the attention of the Washington police last night by William H. Lastrange of 414 K street northwest, who stated that three white men made an attack on his wife while she was riding in the day coach between Cumberland, Md., and Martinsburg, W. Va., Sunday night. After striking and choking her, the husband said, the men took from her neck a gold chain and locket. Mrs. Lastrange, he said, called to the conductor and brakeman to defend her, but they refused, he alleged, and the passengers in the car were also heedless of her appeals for help. She said her assailants left the train at Martinsburg, and she was only able to give a description of one of them. He was about 30 years old, 5 feet 6 inches tall, stout of build, with sandy hair and complexion. Mr. Lastrange said that his wife showed evidence of the assault, her face being swollen from a blow she received. The train arrived in Washington at 11.30 o'clock Sunday night.

A good complexion is impossible with the stomach out of order. If pasty sallow people would pay more attention to their stomachs and less to the skin on their faces, they would have better complexion. KODOL FOR DYSPEPSIA will digest what you eat and put your stomach back right in shape to do its own work. Kodol relieves palpitation of the heart, flatulence, sour stomach, heart burn, etc. Sold by W. F. Creighton & Co., 401 King St.

Color Line Among Presbyterians.

The color line was sharply drawn and the negro question came squarely to the surface for the first time in the Presbyterian Assembly at Des Moines Saturday. The committee on church policy submitted a report recommending the erection of a synod in Alabama to include the presbyteries of Birmingham, Levere and Rogersville, to be known as the synod of Chattanooga. The presbyteries are now included in the synod of Tennessee. The other presbyteries in the synod are French Broad, Holston, and Kingston. The presbyteries of Birmingham, Levere and Rogersville are composed of negro churches. The others are composed of white churches.

The purpose of the committee was to divide the races. No sooner had the report been submitted than Russell Taylor, a negro minister of Levere and one of the commissioners to the assembly from that presbytery took the floor. He violently opposed the proposed synod.

After a spirited discussion, in which the colored commissioner received the majority of the applause, it was unanimously voted to refer the whole subject to the assembly of 1907.

Wife Buys Bargain; He Shoots Himself.

This is too much; this is the last straw," wildly shrieked Fred Bundy, as he fled from his home grasping a revolver, with which he shot himself a few moments later. Mrs. Bundy had come home from a bargain sale at a clothing factory with a skirt for which she paid $1.27. She was excited and happy, and she told Bundy what a fine bargain she got. He flew into a rage, and, without stopping to look at the skirt, he rushed to his room, snatched up the pistol and ran out of the front door. Mrs. Bundy's screams attracted neighbors, and they found her husband in the woodshed. A doctor said Bundy would not die, and that excitable person apologized to his better half for alarming her. He even examined the skirt, which he declared was certainly worth the money. Smiling behind her tears, Mrs. Bundy forgave him.

Third Member of the Family Dead.

Prof. James Richards, of Floyd county, died at his home Sunday night of pneumonia, aged 49 years. He had been a school teacher for 30 years. He was the father of John Richards, the young University of Virginia medical student and former public school teacher, in Floyd county jail awaiting his third trial for the murder of his rival suitor, Maurice Francis, of Roanoke. This is the third death in the Richards family in the past two weeks, the mother and brother of John Richards having died of pneumonia a fortnight ago. At their funeral Prof. James Richards prayed that he might follow them and have his earthly troubles ended. A sister of John Richards has been ill of pneumonia, but is better. John Richards himself has been prostrated by the afflictions. The three deceased members of the Richards family were the principal witnesses for the defense in the trials of John Richards. But one witness, now ill, remains by whom the prisoner has relied upon to prove an alibi.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds, at E. S. Leadbeater & Sons' drug store. Price 50c and $1.00. Trial bottle free.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, MAY 29, 1906.

DURING THE past few years a considerable amount of money has been spent in Alexandria in legitimate enterprises which have from time to time been described in the Gazette. Large and modern structures have taken the places of those which had heretofore been used as banking houses, while other places have been metamorphosed and modernized. Such work is still in progress, and it is hoped the example set by a few will be followed by others. In some cases capital spent in Alexandria has been brought from other places, which shows that outsiders have faith in Alexandria. That the people of this city should do everything reasonable to encourage those who come in our midst and risk their capital is self-evident. Unfortunately pessimism is a disease with some, and they suffer from it throughout life. Others, however, of naturally hopeful natures, nurture optimistic instincts and ever hope for the best. The late Robert Portner has demonstrated the fact that business men can make money in Alexandria as well as in any other city, and his experience is that of numbers now living here who by their energy have erected large business institutions.

WHATEVER the committee on interstate and foreign commerce may do, it is inconceivable that the House should pass a pure food bill sanctioning light weight by allowing the weight to be "approximately" stated, with a legal sanction of whatever has been customary hitherto. It would be a very wholesome thing to require all packages goods to weigh or measure the exact amounts stated on the wrapper and the amount should be so stated. As for the patent medicines, it would be better to have no restriction at all than such a humbug restriction as one that does not require the amount of opium or alcohol in the compound to be stated unless the amount exceed a certain percentage. No matter how small it is, the amount of opium or alcohol in a patent medicine should be plainly indicated on the package.

THE Philadelphia North American says: "President Roosevelt expects to win another victory over Aldrich and the representatives of corporation interests in the Senate before Congress adjourns." Continuing the paper says: "The anti-immunity bill, intended to make effective trust prosecutions by virtually repealing the sections in the anti trust laws, giving immunity to corporations and individuals who furnish information against themselves, is expected to pass. It was not included in the legislative programme that Aldrich and Crane submitted to the President a week ago, but the omission was brought to the President's attention, and he demands that the bill be acted upon." If this victory is like that which Mr. Roosvelt gained over Senator Aldrich in the railroad rate bill the Senator will be satisfied.

IT WAS said to be the consensus of opinion yesterday among Wall street bankers and railroad men whose attitude toward the Pennsylvania is disinterested that President Cassatt was in a very difficult position. If he establishes by absolute proof his own innocence in the matter of profits from favored coal companies, it was said, he proves great neglect and remissness on his part in failure to detect the improper practices in immediate associates of his official family. If he does not attempt to establish his ignorance of what was going on, he cannot, of course, expect himself to be sustained; and in either event he will find it most difficult to avoid the strong demand for his resignation that is sure to be made.

IN a letter to the newspaper editors of America, Upton Sinclaire, author of "The Jungle," makes a public challenge to J. Ogden Armour to bring a criminal prosecution, by charging that Armour is personally responsible for the death of thousands of people who consume the products of his "condemned meat industry." Sinclaire says in so many words that it means murder. All that he wants is a chance to prove his charges in court, and he asks if Armour is afraid to give him a chance. All that Armour has answered to the published evidence so far, says Sinclaire, is to send out more advertisements in the newspapers and magazines with the object of heading off criticism.

THE WHOLESALE price for canned tomatoes will be advanced two and one-half cents per case tomorrow. The syndicate of packers and others, who control about 2,000,000 cases, having notified their brokers and wholesalers that the price will be advanced from $1.17 to $1.20 per case, orders being taken at the first figure for today only. Well, summer is coming on and consumers will soon be able to buy fresh tomatoes cheaper than they can buy canned ones.

George W. Perkins has offered his resignation as a trustee of the New York Life Insurance Company.

From Washington.

[Correspondence of the Alexandria Gazette.]

A conference will be held Wednesday or Thursday between the Interstate Commerce Commission and its attorneys conducting the coal and oil investigations, in accordance with the Tillman-Gillespie resolution, to decide upon further procedure. Dates for future hearings on both subjects will probably be set at that time. In the meantime the attorneys will prepare their recommendations in regard to the matter for the commission. It is barely possible that a report on the oil relations of the railroads to the oil business will be made to Congress at this session. The Baltimore and Ohio Railroad has at last complied with the request of the commission for a copy of the contract by which it transferred, during the course of the investigation into the coal situation, its holdings in the Consolidation Coal Company, of West Virginia, to the Watson syndicate of Baltimore. Startling as has been the coal graft of officials the commission is inclined to believe that coal is but one of the many items upon which the grafters have levied their tax.

Great pressure is being brought to bear upon President Roosevelt to induce him to make public the report now being prepared by Labor Commissioner C. P. Neill and James B. Reynolds of New York upon the sanitation of the stock yards and packing houses at Chicago Upton Sinclair, author of "The Jungle," the book which is given the credit for starting the present agitation against the packers which resulted in the partial passage of the Beveridge bill, has written a letter to the President, in which he asserts that the public is entitled to know what Messrs. Neill and Reynolds found out, no matter whom it hurts. Mr. Sinclair declares in addition that the packers have applied the thumbscrews to the stock men who are in their power ordering them to petition the President to withhold the report. The President having a sympathetic interest in the cowboys and ranchmen has thus far refrained from opening up the scandal under the belief that he is thereby protecting the innocent raisers of cattle.

At a request of the democratic floor leader, Mr. Williams, Mr. Finley, of South Carolina, is preparing and will introduce today a resolution calling for the report of Charles P. Neill, and Jas. B. Reynolds, dealing with the alleged unsanitary conditions in packing houses. This report was made to the President, and has been withheld to serve as a club with which to force the passage of the Beveridge inspection amendment to the agricultural appropriation bill. Representative Sulzer, of New York, beat Mr. Finley to it, however, his resolution introduced today, calling on the President for the reports in question, "in connection with their investigation of the meat trust, the stock yards, and the meat packing houses of Chicago, Illinois, and other places, and all data, exhibits, and correspondence in any way relating to the same."

When Representative Williams learned that Representative Sulzer had introduced the resolution calling for the packing house report, he became quite indignant. Representative Finley concluded, as a result, not to offer one on the subject in the hope of side tracking the Sulzer resolution.

The minority of the Senate canal committee today filed their report of a lock canal at Panama and against the sea-level plan recommended by the majority in the bill now pending before the Senate. The cost of the sea-level canal, the report says, would be $272,000,000 or nearly double that of the lock canal, and would take at least six years longer to build. The lock canal can be completed in nine years at most or in 1915, and would also begin earning money.

President and Mrs. Roosevelt left this evening at 2:30 on the yacht Mayflower for Portmouth, Va, where the President is to address his comrades of the Army and Navy Union at the Memorial Day exercises to be held in the old naval cemetery. A monument erected to the memory of the soldiers and sailors who fell in the civil war will be unveiled, and the President will march in the procession which will strew flowers upon the graves of the dead. The Mayflower is due to return to Washington about daybreak on Thursday morning.

Samuel Gompers, president of the American Federation of Labor, is preparing a synopsis of the views of all the representatives in Congress and announces that he will soon publish their names in classes, indicating their friendliness or opposition to the cause of labor. In a signed editorial on the subject in the American Federationist he acknowledges the Federation is threatening Congressmen, but he argues why the privilege cannot be accorded labor when corporate interests "buy" congressmen. President Gompers has addressed a letter to every representative, requesting a statement of his views on the labor question, particularly the "bill of grievances" presented to President Roosevelt and Speaker Cannon some months ago. These answers are now being compiled.

The House committee on commerce, today, authorized favorable report on the Esch bill, limiting the hours of labor railroad employes. The maximum limit is the 16 hours, followed by a minimum period of rest of ten hours.

The Gardner eight hour bill extending the eight hour law to all government contracts, was today ordered favorably reported to the House by the committee on labor. The action was a great surprise, and was the result of a coup executed by the democrats of the committee who took advantage of the absence of some of the republican members.

U. S. Minister Leslie Combs, at Guatemala City, has, wired the State Department, the dispatch being received late last evening, that a revolutionary party attacked Ocos, Guatemala, from over the Mexican border, and were easily driven back. The Asylum Investigation.

Dr McGuire Williams, who was succeeded by Dr. Henderson as assistant physician at the Eastern State Hospital, who came in for much criticism in regard to ducking the patients, will be defended by the faculty of the University College of Medicine, of which he was a graduate. Dr. Ed. McGuire and Dr. R. C. Bryan, professors in that college, at their own suggestion will be summoned to testify.

Mrs. Norman Randolph, of the auxiliary of Lee Camp Soldiers' Home, was at the asylum yesterday looking after the comfort of the old soldiers sent there as insane. She was indignant at the charge that they were only weak and feeble and ought not to be there. She said she knew of her own personal knowledge that they were insane and that it was the proper place for them.

In the course of the investigation Steward Archie Brooks was questioned about the conduct of the asylum farm. He complained that able-bodied patients were hard to get for manual labor, saying that only two worked regularly on the farm. He admitted, in reply to Chairman Sadler, that not enough feed was made to supply the horses and hogs.

Answering further questions, the witness said that one man had worked 35 years in the carpenter shop. Mr. Rison, a member of the committee, wanted to know whether such men received any pay for their services. Witness replied that they did not.

"Doesn't the State defraud these men of their services?" asked Mr. Rison. "Couldn't their pay be used by their families?"

The witness replied that pay for work was not customary and that the patients seemed to enjoy it.

IN MEMORIAM.

In sad, but loving remembrance of my beloved husband, LAWRENCE R. WASHINGTON, who departed this life May 29, 1905—one year ago today.

In the graveyard softly sleeping
Where the flowers gently wave,
Lies the one we loved so dearly
In his lonely, silent grave.

Farewell, dearest father, may your slumber
Be as gentle as your love,
And when God shall call us homeward
May we meet in Heaven above.

BY HIS CHILDREN.

Death has robbed me of my husband,
Of the one I loved so well;
Taken from this world of pain and sorrow
Safely home with Jesus to dwell.

My darling has been laid in the cold clay;
How calmly he is sleeping;
While his devoted wife stands by weeping
For the life of my life was taken from me.

BY HIS SORROWING, DEVOTED WIFE,
MRS. B. WASHINGTON.

Today's Telegraphic News

Tainted Meat in the United States.

London, May 29.—The London newspapers generally make a display of the facts in regard to the use of tainted meat in the United States, but only two of them comment upon the revelations, apparently accepting the cabled statements that the bad food is sold mainly in the United States and is not exported.

The Pall Mall Gazette, owned by William Waldorf Astor, expressed the opinion that the anti-trust movement in the United States will gain momentum as a result of the revelations, but adds: "In a short time the subject will be forgotten, and, if precedent is any guide, the old system will be flourishing under the eyes of the army of inspectors paid to hold their tongues. America has still to learn the lesson that good government can only be obtained by steady and sober attention to its details and not by paying a number of people to relieve the nation of its proper responsibilities. The prolonged spells of indifference, varied by the explosions of indignation, are only a satire on the benefits of a pure democracy."

The Evening News speaks in a similar vein and then says: "The people which permits corruption certainly suffers for its sins." The paper rejoices that English firms will profit because of the exposures which have been made, saying: "It is a comfort to know that the ruffians responsible for the Chicago packing scandals will suffer severely. Their pockets are the only spot where they have any feeling."

Inquiries made among London traders showed that they are apprehensive as to their ability to dispose of their existing stocks of American meats. Buyers today refused to purchase meats not bearing the names of the principal British firms which are regarded as being free from reproach, owing to the stringent inspection of their factories. The prosecution of British manufacturers of potted meats and preserves is rare, owing to the exemplary punishments inflicted when a conviction is secured.

A member of the firm of Crosse & Blackwell, the largest manufacturers and handlers of packed goods in England, and large buyers of American canned goods, said to a representative of the Publishers Press, that his firm would not have any more dealinings with American packers until they are satisfied with the excellence of their products. He declared that he does not believe goods such as those described in the cable message received here could be sold in Great Britain, as no firm of reputation would handle them, aside from the danger of the discovery of their nature as the result of analysis by experts employed both by the government and private dealers for the purpose of detecting impure foods.

Romance and Poverty.

Paris, May 29.—A pitiful story of romance and poverty has come to light here as the result of the investigation into the death of Adrienne Gauthier, whose dead body was found in an empty room. She was forty years old and by dint of hard work and careful hoarding had saved a little money. She fell madly in love with a youth of eighteen, and while her money lasted the youthful lover was very attentive. He disappeared, however, as soon as the last coin had been spent. Then the woman tried suicide by jumping into the Seine, but was rescued and taken home. When the lover was informed he returned to the woman praying for forgiveness. The lover proved recreant, however, and again deserted her. To make the matter worse, the woman lost her position. In utter despair the woman pawned all her belongings and with the proceeds, 12 francs, bought a revolver. She returned to her room, which had been stripped of of everything to provide money to buy the revolver and there shot herself.

The Russian Crisis.

St. Petersburg, May 29.—The Douma is going steadily ahead in the development of the plans of its leaders to force upon the authorities the recognition of its prerogatives and powers, and to bring the government under its control. By a unanimous vote it was decided today to interpellate the government on the subject of the telegrams attacking the Douma which have been printed frequently in the Official Messenger, the organ of the government. It has been freely charged that these telegrams were inspired by members of the Bureaucracy, and from official quarters, so that the decision to question the government in the matter is significant. The agrarian and its accompaning problem of how to provide land for the peasants is still the most important topic of discussion before the deputies. The debate on the question has aroused the greatest interest.

Approaching Royal Wedding.

Madrid, May 29.—The royal guests to the wedding of King Alfonso and Princess Ena will arrive in Madrid this afternoon. King Alfonso will give a reception at the palace in their honor and there will be a gala performance tonight at the Pardo Palace. The audience will be composed entirely of the memberr of the royal family, Princess Ena, her mother, Princess Henry, of Battenburg, and the brothers of the Princess, together with the foreign princes and princesses who will attend the wedding.

Fell or Jumped from Hotel Window.

New York, May 29.—A young man, who either jumped or fell from a window of the Cross Hotel, in 8th avenue, last night and was picked up unconcious, was identified at St. Vincent's Hospital, where he was removed, as Joseph Greenwood, 23 years old, a Princeton student. The identification was made by a brother of the young man, who told the hospital authorities that he did not believe his brother had attempted suicide It was said at the hospital that the patient's injuries were not likely to prove fatal.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Mrs. Clifford was first married at the age of 15. Hoban came here ten weeks ago, met Mrs. Clifford, who is well preserved and not uncomely for her age, became smitten with her and a courtship was begun. The wedding will be celebrated in the house where Mrs. Clifford has resided forty-eight years. Mrs. Clifford is the mother of two children, has nine grandchildren and fifteen great-grandchildren. Hoban has no children. He is employed in a local industrial plant as a machinist.

The trial was resumed, and the prosecution called further witnesses in rebuttal. The girl was overjoyed when she heard the report of the commission, for she heard yesterday afternoon that the alienists had found her mentally unsound.

Managers and principals were arrested after the fight was over and they will be arranged today. The managers claim no law was violated, as all present were members of the Twentieth Century Club.

Fifty-ninth Congress.

Washington, May 29.

SENATE

Senate clerks were again almost engulfed by a deluge of anti-Smoot petitions, after the opening prayer today.

They came from Ohio, New Jersey, Rhode Island, Washington, Oregon, Maine, Arkansas, Louisiana, Nevada and Georgia.

HOUSE.

In the House, today, several members who were arrested late yesterday for failing to attend the session, hurled their defiance at the Speaker's devoted head. Gaines, of Tenn., charged discrimination and Rucker, of Missouri, complained because Longworth, of Ohio, "immediate member of the White House" had not been arrested a few days ago, when he was brought in from the ball game to attend.

Representative Payne, republican floor leader, read the riot act to the members for absenteeism.

"If they had done their duty," he said, "they would not have been arrested."

After two roll-calls, and after consuming two hours of time, the journal of yesterday was approved, the House having refused to eliminate the parts of the journal which gave an account of the arrests.

Mr. Murphy, of Missouri, raised a question as to the right of the Speaker to issue warrants for the arrest of members.

Speaker Cannon held that he has such a right, although not expressly conferred by the rules, and that, as the arrest of absent members was lawfully made, the question as to the right of issuing the warrants was a barren one. His decision was applauded by the republicans.

Parliament to Princess Ena.

A delegation of the foremost men in the Chamber of Deputies and Senate, without distinction of party, visited the Pardo Palace, in Madrid, last night, and presented Princess Ena of Battenberg, the future queen of Spain, with an address of welcome on behalf of the Spanish nation. This action is significant of the sincere cordiality with which Spain has received the foreign princess. King Alfonso, with Princess Ena, received the visiting statesmen in the grand saloon of the Pardo Palace. Senor Canalajes, president of the Cortes, addressed the princess. Later the municipality of Madrid extended its salutations to the princess and presented her with an address. Princess Ena received the city's representatives most graciously, conversing with the leaders of the delegation.

During the afternoon King Alfonso took the Princess in an automobile to Escorial, where wreaths were placed on the tombs of Spanish sovereigns buried there.

The features of yesterday's festivities in honor of the wedding was an automobile parade, in which a royal party participated. Two hundred cars, beautifully decorated with flowers and flags, and filled with pretty women in gay costumes, defiled through the streets, which were packed with holiday crowds.

On passing the Royal Palace, King Alfonso, Princes Charles and Ferdinand and the Infanta Isabel joined the procession, the King and Princes driving their own cars. The route was to the Pardo Palace, where Princess Victoria reviewed the parade.

Lightning Stops Dance.

One of the worst storms in recent years passed over the vicinity of Seaford, Del., yesterday morning between 10 and 12 o'clock. Rain fell in torrents and thunder and lightning was terrific. Lightning struck a tenant house on the farm of Mrs. S. F. Moore, three miles from Seaford, in which 22 negro berry-pickers were having an old fashioned dance. One side of the house was torn completely away.

Robert Conaway, his wife and sister Sarah Jane Conaway, were knocked senseless and the negroes trampled over each other in their efforts to leave the house. They reported the accident to Mrs. Moore's son, who found that Robert was still unconscious and horribly burned about the back and legs. He is in a critical condition. The two women were also burned about the face and arms, but will recover. The house was a complete wreck.

From every part of the country come reports that young chickens were drowned, the storm having come so quickly that it was impossible to house them. In some portions of the town it was possible to row boats, so deep was the water.

Much damage was done in the outlying districts by the blowing down of fences.

Swept Away by Flood.

A disastrous flood occurred yesterday morning in Golconda, Nev., following the breaking of a large dam in Pole Creek Canyon, three miles above the corral of the Golconda Cattle Company. Five men were drowned and several were injured. When the dam broke an immense volume of water poured down the canyon, carrying everything before it. When the wave struck the sheep corral, where a number of men were shearing sheep, it carried the men and the sheep away. Not a building or fence belonging to the Golconda Cattle Company was left standing. The track of the Southern Pacific was undermined west of Golconda, and all trains are late.

Death of Robert Portner.

Mr. Robert Portner, whose critical illness had been mentioned in the Gazette, died yesterday afternoon at 4:45 o'clock at "Annaburg," his country home at Manassas. Mr. Portner had been in feeble health for a long time, and death came as the result of bronchial trouble. He left his city home in Washington Sunday, May 20, for Manassas, and was taken ill there the following Tuesday. His condition grew worse and it soon became evident that his death was inevitable. He leaves a widow and ten children—five sons and five daughters. Three of his children—two sons and a daughter—died in recent years. A sister and a brother of the deceased are living. His wife and children were at his bedside during his last hours.

Robert Portner was born March 20, 1837, at Rahden, Westphalia, Prussia. His early education was received in the Prussian Military Institute at Annerburg, Saxony, to which he was appointed by the crown. His father distinguished himself as a Prussian soldier at the battle of Jena during the Napoleonic wars, which entitled his sons to the appointment. The deceased came to New York in the early fifties and engaged in mercantile pursuits. In 1861 he came to Alexandria and engaged in business with Mr. Fred. Recker on the southeast corner of King and St. Asaph streets. He later entered the brewing business in an old building which stood at the northeast corner of King and Fayette streets. From this humble beginning was evolved the extensive plant on north St. Asaph street, known as the Portner Brewery. In 1883 he incorporated the Robert Portner Brewing Company of Alexandria. The National Capital Brewing Company of Washington was later organized, and Mr. Portner became its vice president. Mr. Portner was an early investigator of artificial refrigeration and the first refrigerating machine was put in the brewery here in 1878. At the time of his death he held the following positions: President of the Robert Portner Brewing Company of Alexandria; president of the Capital Construction Company of Washington; vice president of the National Capital Brewing Company of Washington, and director in the Virginia Midland Railway, American Security and Trust Company of Washington and in the National Bank of Washington. He was the founder of the German building and loan associations in this city; of the Alexandria ship yard, and of the German Banking Company, of which he was president. Among the other institutions in which he was interested are the Riggs Fire Insurance Company of Washington and the National Bank Bank of Manassas. He removed to Washington in 1881, and acquired large holdings of real estate in that city.

Wedding of Washingtonians.

About half-past 8 o'clock last night a young man 22 years old, accompanied by a woman somewhat older, both of whom had been drinking, arrived here from Washington in quest of a marriage license and a preacher to tie a nuptial knot. They accosted an Alexandrian on the street and requested him to aid them in obtaining the same. The license was soon procured after which the trio went to the residence of a minister. The latter was several minutes in making his appearance, and during this lull the young man suggested to the woman that they defer getting married. He stated that he had been married before. The minister, however, appearing the couple stood up and they were soon declared man and wife. Later the party repaired to the Fleischmann Hotel where supper was ordered for which the gentleman who had been their guide had to pay.

Opening of Luna Park.

Although the weather was inclement last night many persons visited Luna Park. Mr. Frederick Ingersoll, of Pittsburg, builder and designer of the park, was unable to be present, and George W. Sammis, general manager of the circuit of parks controlled by Mr. Ingersoll, came on from Pittsburg to supervise the opening. The "Trail," along which the numerous attractions are strung, presented a pretty scene. All the attractions were in operation, with the exception of the chutes, which were delayed by the non-arrival of some necessary machinery. A collation and a tour of the "Trail," conducted by Mr. Henry E. Warner, of Baltimore, the press representative, were given the newspapermen. Despite the rain all who attended had a most enjoyable time. In a few days the park will be in full swing.

Declared the Nominees.

The city democratic committee has declared Capt. Albert Bryan one of the democratic nominees for the City Council from the Fourth ward. As heretofore stated Capt. Bryan declined to be a candidate for re-election and C. O. Pulman was declared the nominee in the absence of opposition. Mr. Pulman subsequently withdrew from the race and Capt. Bryan acceded to the wishes of a number of citizens who urged him to allow his name to go on the ticket. The nominees from that ward are J. T. Sweeney for alderman and L. E. Uhler and Albert Bryan for council.

A Big Mortgage.

The Southern Railway filed a two hundred million dollar mortgage in the clerk's office of the Corporation Court for record in this city today. The lien is given to the Standard Trust Company of New York, and the document states the loan is for the general enlargement of the system. The Virginia State tax on the mortgage is ten thousand dollars, which was paid in Halifax county. A copy of the deed will be recorded in every county and city in the State through which the railroad passes. The deed contains 49,000 words.

Appraisers Appointed.

The United States District Court of the District of Columbia has appointed Messrs. James E Clements of Alexandria county, R. F. Knox, of this city, and Marcus L. Notes, of Washington, appraisers of the property of Resen W. Darby, of Alexandria county. Mr. Dabney owns property both in Alexandria county and in Washington city and has recently gone into bankruptcy. The estate is valued at between thirty-five and forty thousand dollars. The work of appraisement was commenced today.

The Henry Street Track.

As has been stated, a joint meeting of the committees on streets and general laws will be held tonight in the chamber of the Common Council for the purpose of considering a petition for the removal of the railroad track from Henry street. A number of residents of Henry street, as well as property owners thereon, desire Council to order the removal of the rails. It is said, however, that the Southern Railway Company wishes to run light engines to and from Washington over the track.

Baseball.

The Alexandria Athletic Club will play the strong Washington Boys' Club on the old fair grounds tomorrow evening at 2:30 o'clock. This team has played and won nearly all of its games this season. The line up of the Alexandria team will be as follows: Kraft and Gorman, battery; Bright, Fitzpatrick, Brenner, Wheatley, Benzette, Gray, Bright and Brenner. A good game is promised all who attend.

Electricity.

The electrical properties of amber were known to the Greeks before the Christian era. Electricity takes its name from the Greek word for amber. Gilbert in 1600 was the first to employ the terms "electric force" and "electric attractions." In 1748 Franklin's electrical researches had progressed so far that he killed a turkey by the electric spark and roasted it by an electric jack before a fire kindled by the electric bottle, and in 1752 by means of the kite experiment he demonstrated the identity of electricity and lightning. The first magneto-electric machine was made at Paris by Pixii in 1832; the first telegraph line in the United States was set up between Washington and Baltimore in 1844; the first submarine cable was laid between England and France in 1850. As early as 1802 Sir Humphry Davy produced an electric light with carbon points on almost the same principle as that now employed. The first electric railway on the continent of Europe was built by Siemens at Berlin in 1881, the first in England was constructed in 1882, and in America the first electric line was built in 1885.

Royal Roads.

People will discover at last that royal roads to anything can no more be laid in iron than they can in dust; that there are, in fact, no royal roads to anywhere worth going to; that if there were it would that instant cease to be worth going to—I mean so far as the things to be obtained are in any way estimable. In terms of price, for there are two classes of precious things in the world—those that God gives us for nothing—sun, air and life, both mortal life and immortal, and the secondarily precious things which he gives us for a price. These secondarily precious things, worldly wine and milk, can only be bought for definite money. They never can be cheapened. No cheating nor bargaining will ever get a single thing out of nature's establishment at half price. Do we want to be strong? We must work. To be hungry? We must starve. To be happy? We must be kind. To be wise? We must look and think.—Ruskin.

The Tip of the Alligator's Tail.

A great delicacy in Florida, according to the Cleveland Leader, is the tip of an alligator's tail. It tastes like frogs' legs, though a bit more gamy. Alligator tails are best just after the ricebird season. The big alligators float in the water with only their eyes showing. When they see a flock of these fat, juicy little birds they dive to the bottom. Their long, wide snout scoops up some of the loam, and they float to the surface again with just the rich soil showing. The birds think it is an island. They alight upon it. When the whole family is there the big reptile turns suddenly. Just as the birds scramble off he opens his mouth once. They are gone. The birds are neat little feeders, and the alligator is an epicure at this time of the year. The ricebird diet makes the tip of his tail, of which he is most vain, tender and sweet.

A Famous Dwarf.

Geoffrey Hudson, the famous dwarf of Charles I., was introduced at court during the festivities attending the coronation. By an odd conceit he was concealed in a cold pie, the crust of which being removed disclosed the dwarf fully dressed and making his bow to the king and queen. At the age of twenty he was eighteen inches high, but before attaining the age of thirty he grew several inches additional. Geoffrey, like most dwarfs, was of limited intelligence, but of intense vanity and large self conceit. It is asserted by many scientific authorities that this is a characteristic of dwarfs.

The Theater of Dionysus.

What was probably one of the earliest theaters built was the theater of Dionysus, which was begun five centuries before Christ. The seating capacity of this remarkable building is said to have been 30,000. The theater of Dionysus was erected when Greek art and literature were in their prime. Here were presented to appreciative spectators the wonderful works of Aeschylus, Sophocles and Euripides.

The Burglar's Grasp.

"Did it ever strike you that a burglar of all men is most sensitive to the fitness of things?"

"Can't say it ever did. How do you make it out?"

"He always throws light on his shady transactions with a dark lantern."—Baltimore American.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stickles, of Miletus W. Va., "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at E. S. Leadbeater & Sons' druggists.
